

Findings from the National Maternal Mortality Report 2018

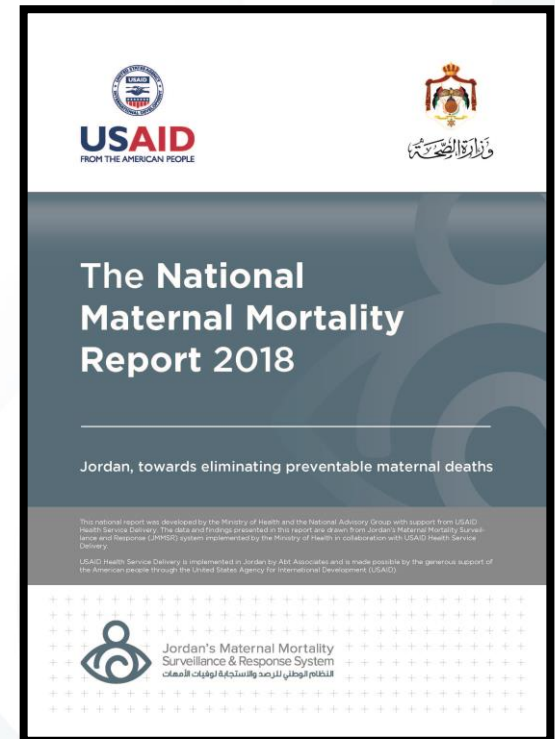

Jordan's Maternal Mortality Surveillance & Response System
النظام الوطني للرصد والاستجابة لوفيات الأمهات

Reporting Period

The results in this presentation cover the reporting period from **January 1st to December 31st 2018**

Jordan's Maternal Mortality Ratio (MMR)

- During the reporting period **1,247 deaths** among women of reproductive age were notified through the JMMSR Information System (JMMSR IS).
- A total of **62 maternal deaths** were identified from these.
- A total number of **207,917 live births** for the same period.

Jordan's Maternal Mortality Ratio (MMR)

- **Jordan's Maternal Mortality Ratio was calculated at 29.8 per 100,000 live births**

Maternal Deaths by Demographic Characteristics

- **MMR by Maternal Age Group**
- **Nationality**
- **Educational Level**
- **Employment Status**
- **Place of Residence and Place of Death**

Maternal Deaths by Clinical Characteristics

- **Parity**
- **Timing of Death**
- **Antenatal Care**
- **Mode of Delivery**

Maternal Deaths by Parity

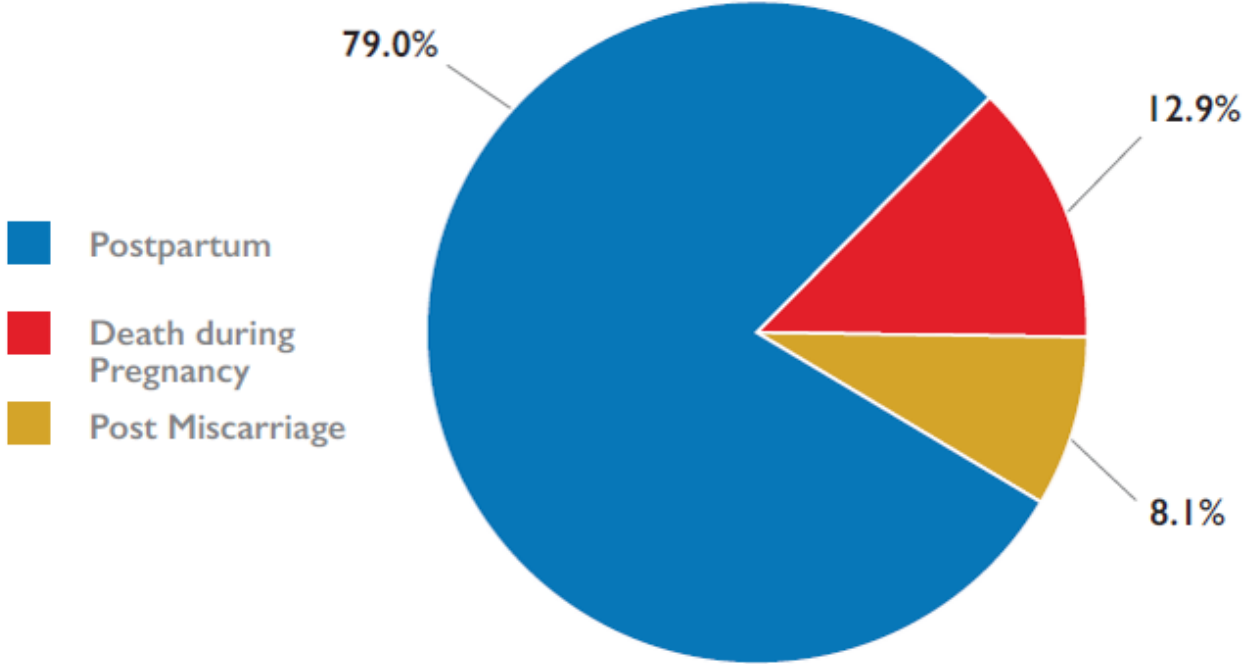

Table 2: Maternal Deaths by Parity

Parity	Number of Maternal Deaths	Percent
Nulliparous	2	3.3
Multipara	59	96.7
Total	61*	100

**The parity was missing for one case.*

Maternal Deaths by Timing of Death

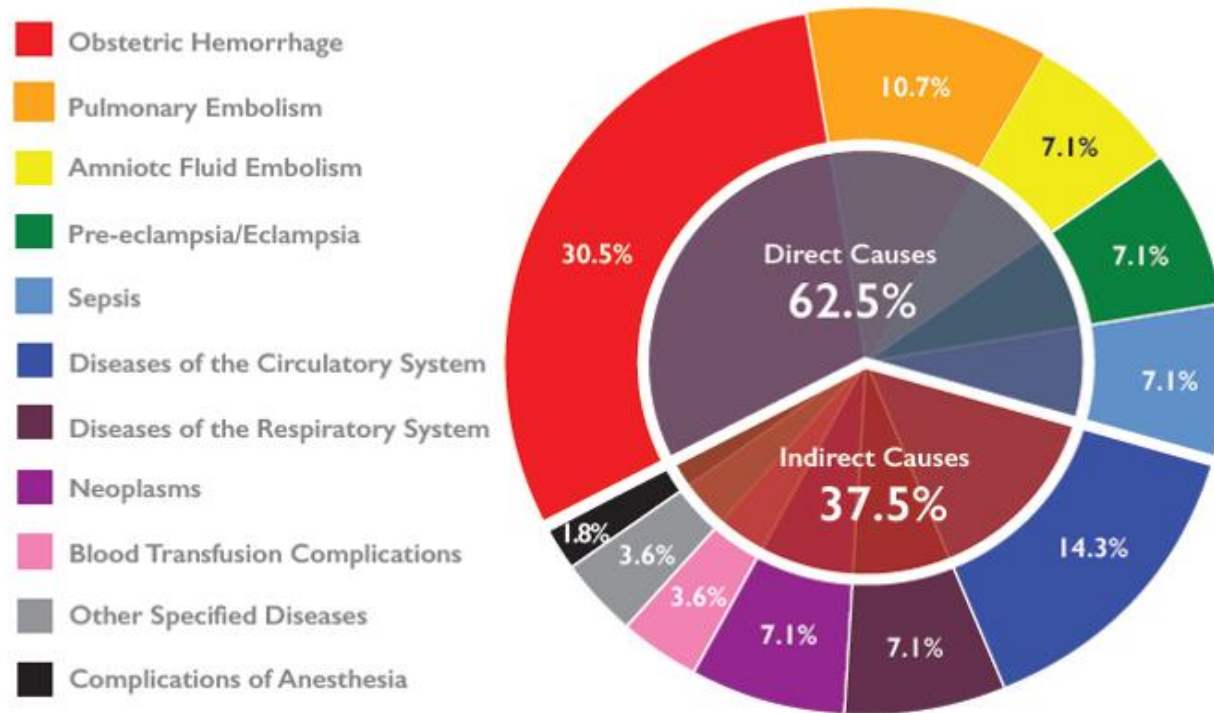

Maternal Deaths by Mode of Delivery

Table 4: Maternal Deaths by Mode of Delivery

Mode of Delivery	Number of Maternal Deaths	Percent
Cesarean delivery	39	62.9
Vaginal delivery	10	16.1
Miscarriage	5	8.1
No delivery	8	12.9
Total	62	100

Maternal Deaths by Causes of Death

JMMSR System Responses

- **Adopt strategies for the prevention and management of obstetric hemorrhage.**
- **Adopt strategies to reduce cases of venous thromboembolism.**
- **Adopt strategies to enhance the quality of antenatal care services.**
- **Reduce unnecessary primary cesarean section deliveries.**
- **Increase the uptake of quality family planning methods.**

Jordan's Maternal Mortality
Surveillance & Response System
النظام الوطني للرصد والإستجابة لوفيات الأمهات

Jordan's Maternal Mortality Surveillance and Response System (JMMSR) was developed under the USAID Health Service Delivery Implemented in Jordan by Abt Associates and is made possible by the generous support of the American people through the United States Agency for International Development (USAID)
